KVS (RO) JAIPUR

FROM PRINCIPAL'S DESK

The covid-19 pandemic has significantly disrupted the school system. Which is crucial in determining country's future. The Newsletter of the Primary section is document showcasing the talents Inherent in the young students of Primary classes even in online mode of Schooling due to Corona Pandemic.

I welcome you all to my first "Newsletter of primary section of the Session 2020-21.this is a platform for exhibiting the budding talents of the children in all fields. In this newsletter kids get all such opportunities to display their creative activities they have learnt online in this period .I personally believe every child have inherent and hidden talent which is exhibited during this period and should be brought forward under common minimum program to get opportunity and platform to exhibit there talent.

As the days pass by with no immediate solution to stop the outbreak of Covid-19, every house becomes a school and every parent as a teacher. The playtime and study time gets merged with school time. Work from home becomes a new reality for maintaining social distance.

I thanks to all our parents who arranged computers and mobiles to their wards to support digital learning and at last I thanks to our students who supported the online system of education by participating in various online activities/competitions organized by our teachers.

My sincere & best wishes for bright future of my students in time to come.

Sincere thanks to our worthy Shri Yashpal Singh Ji (DC), Shri D.R.Meena Ji (AC), & Shri Mukesh Kumar Ji(AC),KVS,RO,Jaipur for supporting and guidance continuously to continue the academic session 2020-21 in this tough time and also thanks to all the teachers for their continues efforts for children from Vidyalaya as well as work from home.

Principal
Shri G.D.Meena

B bunker message, The implementation of Common Minimum Programme in the primary section is the root of the primary education. The activity based teaching makes the classroom living, enjoyable, meaningful effective and innovative. The fortnightly screening of the film shows breaks the monotony, inculcates values like team spirit, cooperation, patience etc. It enhances the thinking and reasoning skills. The C.C.A and games and sports are part of the non-scholastic curriculum of a learner in K.V. 6 Jaipur. In this era of information technology, Computer based teaching is playing commendable role to bridge the gap between haves and have not's in teaching- learning process. Reading habits is developed among the students through the class library. To develop the constructive attitude, enrichment of the vocabulary, enhancing the students' imaginative, creative and thinking skills various activities such as poem recitation, quiz, storytelling, news reading, etc. competitions were conducted. Art education plays an important role in the growth of the personality of a learner at all stages of development. The dedicated and devoted team of primary strive to create a supportive and inclusive environment that brings joy in learning; where the students are encouraged to explore their potential and achieve their personal best in all aspects of school life.

B.Bunker

JYOTI VISHNOI (I/C CMP)

Thank you to everyone who is stepping up to ensure our students are staying healthy and safe, and continuing to learn during COVID-19. Many educators and essential workers are balancing the challenging demands of simultaneously teaching and parenting. I want to acknowledge this difficult work, particularly as we are all navigating uncharted waters together.

Students have not only created their own success rules but also believe in themselves by following their guideline based on their goals:

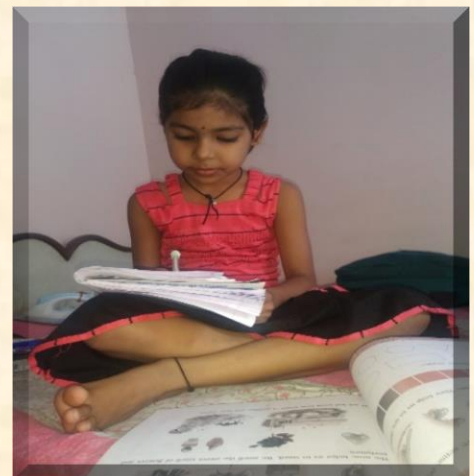

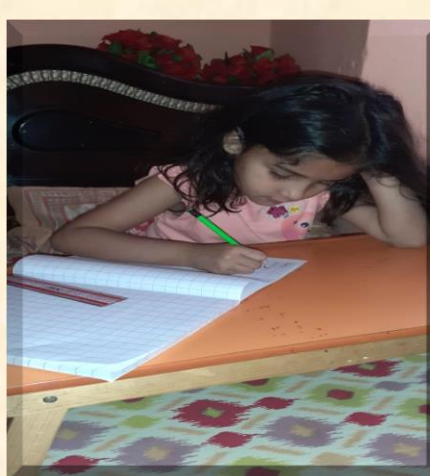

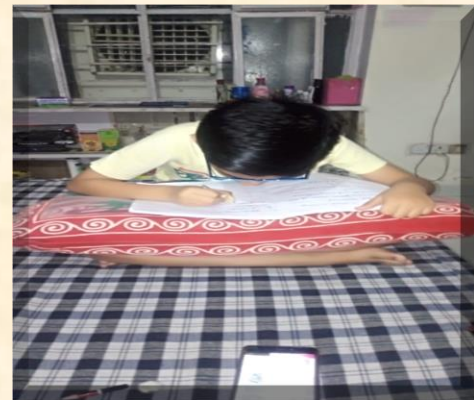

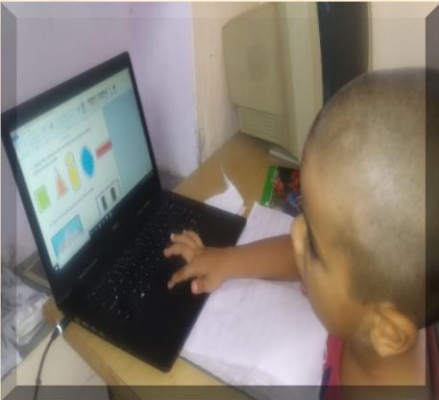

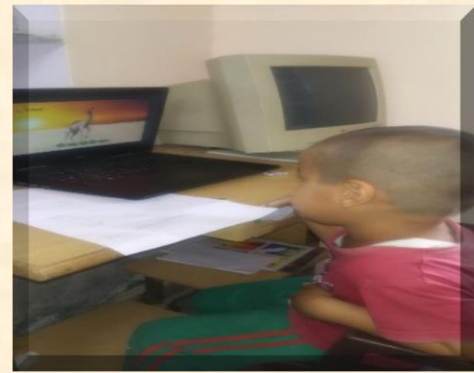

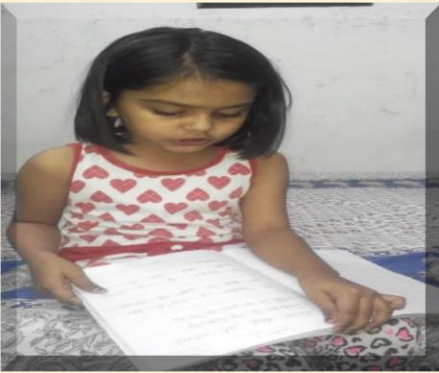

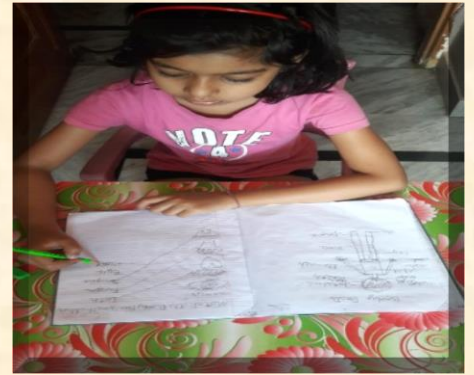

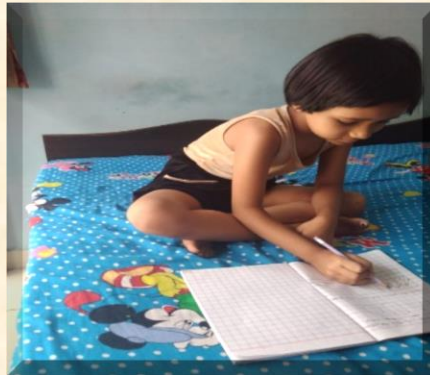

1. Showing up in online class on time.
2. Turning in assignment before the due date.
3. Participating in online groups & discussion forums.
4. Seek joy in online learning.
